Special Issue

SOIL COMPACTION AND THE ENVIRONMENT

Introduction

ISTRO Workshop on 'The Effects of Soil Compaction on Physical, Chemical and Biological Factors in the Environment', 25 August 1993, Melitopol, Ukraine
C. van Ouwerkerk (Haren Gn, Netherlands) and B.D. Soane (Penicuik, UK) 1

Implications of soil compaction in crop production for the quality of the environment
B.D. Soane (Penicuik, UK) and C. Van Ouwerkerk (Haren, Netherlands) 5

Soil compaction processes and their effects on the structure of arable soils and the environment
R. Horn (Kiel, Germany), H. Domżał, A. Słowińska-Jurkiewicz (Lublin, Poland) and C. Van Ouwerkerk (Haren, Netherlands) 23

Effects of soil compaction and tillage systems on uptake and losses of nutrients
J. Lipiec and W. Stepniewski (Lublin, Poland) 37

Biological effects of soil compaction
W.R. Whalley (Silsoe, UK), E. Dumitru (Bucharest, Romania) and A.R. Dexter (Silsoe, UK) 53

Modelling the environmental impacts of soil compaction: a review
M.F. O'Sullivan (Penicuik, UK) and C. Simota (Bucharest, Romania) 69

Protection of soils from mechanical overloading by establishing limits for stresses caused by heavy vehicles
I. Håkansson (Uppsala, Sweden) and V.W. Medvedev (Kharkiv, Ukraine) 85

Technical and economic feasibility of low ground pressure running gear
F.G.J. Tijink (Wageningen, Netherlands), H. Döll (Grossenhain, Germany) and G.D. Vermeulen (Wageningen, Netherlands) 99

Conclusions

Conclusions of the ISTRO Workshop on 'The Effects of Soil Compaction on Physical, Chemical and Biological Factors in the Environment', 25 August 1993, Melitopol, Ukraine
I. Håkansson (Uppsala, Sweden), C. Van Ouwerkerk (Haren Gn, Netherlands) and B.D. Soane (Penicuik, UK) 111

Vol. 35 No. 3 September 1995

Residual effects of slit tillage and subsoiling in a hardpan soil
W.J. Busscher (Florence, SC, USA), J.H. Edwards (Auburn, AL, USA), M.J. Vepraskas (Raleigh, NC, USA) and D.L. Karlen (Ames, IA, USA) 115
Earthworm populations (Lumbricidae) in ploughed and undisturbed leys
U. Boström (Uppsala, Sweden) 125
Zone tillage effects on soil properties and yield and quality of potatoes (*Solanum tuberosum* L.)
F.J. Pierce and C.G. Burpee (East Lansing, MI, USA) 135
Erosion due to cultivation of calcareous clay soils on the hillsides of south west France. I. Effect of former farming practices
J.C. Revel and M. Guiresse (Toulouse, France) 147
Erosion due to cultivation of calcareous clay soils on hillsides in south-west France. II. Effect of ploughing down the steepest slope
M. Guiresse and J.C. Revel (Toulouse, France) 157
Carbon and nitrogen mineralization in row and interrow areas of chisel and ridge tillage systems
D.E. Clay, T.E. Schumacher and K.A. Brix-Davis (Brookings, SD, USA) 167

Vol. 35 No. 3 October 1995

An improved technique for agricultural implement draught analysis
J.L. Glancey (Newark, DE, USA) and S.K. Upadhyaya (Davis, CA, USA) 175
Long-term energy use and economic evaluation of three tillage systems for cereal and legume production in central Spain
J.L. Hernánz, V.S. Girón and C. Cerisola (Madrid, Spain) 183
A comparison between continuous and controlled grazing on a red duplex soil. I. Effects on soil physical characteristics
A.P.B. Proffitt, S. Bendotti (Northam, WA, Australia) and D. McGarry (Indooroopilly, Qld., Australia) 199
A comparison between continuous and controlled grazing on a red duplex soil. II. Subsequent effects on seedbed conditions, crop establishment and growth
A.P.B. Proffitt, S. Bendotti (Northam, WA, Australia) and G.P. Riethmuller (Merredin, WA, Australia) 211
